**WITHOUT SCREEN
THE FUTURE IS COMING**

HOLOGRAM DISPLAY

Hologram display is empowered by a fully-patented Persistence of Vision (POV) technology that rotates images or videos through one belt of ultra-high-density LED lights and presents in hologram visual effects. This device comes with the characters of ultra-thin exterior design, ultra-low power consumption, ultra-high attractiveness, and design for portable.

Higher precision, resolution
reaches 1404*1404

Support wifi,internet,
remote-editing and remote-control

The appliance is light, portable and the
minimum weight is only 0.35 kg

THE INTRODUCTION OF COMPANY

Shenzhen Superbholo Technology CO.,Ltd

Superbholo 3D holographic series of products are produced by Shenzhen Superbholo Technology Co., Ltd.

Superbholo was founded in 2016, focusing on autos-tereoscopy and creative visual effects design, which is the first one in China that successfully develops the holographic screen. Superbholo is also an important member of Guangdong 321 High-level elites importing program and incubation project of Dongguan Technology hall. Since established, Superbholo has always being the pioneer of the industry. Superbholo has absolute predominance in holographic technology field, in possession of many patents for invention and utility models, with distributors in North America, Europe and Southeast Asia.

In Sep. 2017, Superbholo obtained almost 10 million RMB of Angel investments, and its products are being reported by many Chinese mainstream media, e.g. CCTV news, People.cn, and The Paper.cn. Superbholo is on track to high-speed development, adhering to the concept of chang-ing visual effects through innovation.

Bluetooth audio transmission	optional		
Standard Accessories	Remote control unit, power supply, acrylic cover (optional)		Remote control unit, power supply, showcase(optional)
Installation Method	Wall hanging, grounding, portable (12V charging power available, 20,000 mA for 8 hours)	Wall hanging, grounding, portable	
Use Site	Continuously running for more than 30000h		
Warranty	1 year		

SH-30

Medel: SH-30
Standard configuration: Transparent acrylic cover (transparent organic glass)
Direction: Desk
Resolution: 512*512
Screen size: 30cm*30cm
Appearance color: black
Input voltage: 12V
Power rating: 30w
File formats: jpg, gif, mp4, avi, rmvb, mpeg, jpg,jpeg,png,-gif,mp4,avi,rmvb,mkv,wmv,mov,flv
Longevity: continuously running for more than 30000h

Warranty: 1 year
Applied in large Commercial Pedestrian Street, Large shopping mall and shopping centre, Airport subway commercial zone, Well-known brand store (outside) display, Green bus stop, Urban planning, Film and television entertainment venues, New retail chain display, Restaurant chain, Distribution center window advertising, etc.

SH-56

Model:SH-56
Standard configuration: Remote controller, Transparent acrylic cover (transparent organic glass)
Direction: Wall hanging, grounding, portable
Resolution: 640*640
Screen size: 56cm*56cm
Appearance color: black
Input voltage: 12V
Power rating: 30w
File formats: jpg, gif, mp4, avi, rmvb, mpeg, jpg,jpeg,png,gif,mp4,avi,rmvb,mkv,wmv,mov,flv
Longevity: continuously running for more than 30000h

Display in multi-screen: Support holographic interaction of multi-screen as PC extension to enlarge image size
Warranty: 1 year
Applied in Large shopping mall and shopping centre, Airport subway commercial zone, Well-known brand store (outside) display, Green bus stop, Chain retail display, Exhibition hall, New distribution center window ads, Lleisure places, City business center of art and ads, etc.

SH-65

Model:SH-65
Standard configuration: Remote controller
Direction: Wall hanging, grounding, portable
Resolution: 720*720
Screen size: 65cm*65cm
Appearance color: black
Input voltage: 24V
Power rating: 70w
File formats: jpg, gif, mp4, avi, rmvb, mpeg, jpg,jpeg,png,gif,mp4,avi,rmvb,mkv,wmv,mov,flv
Longevity: continuously running for more than 30000h

Display in multi-screen: Support holographic interaction of multi-screen as PC extension to enlarging image size

Warranty: 1 year
Applied in Large shopping mall and shopping centre, Airport subway commercial zone, Well-known brand store (outside) display, Green bus stop, Chain retail display, Exhibition hall, New distribution center window ads, Leisure places, City business center of art ads, etc.

SH-100

Model: SH-100
Standard configuration: Remote controller, Transparent acrylic cover (transparent organic glass)
Direction: Wall hanging, grounding, portable
Resolution: 1404*1404
Screen size: 100cm*100cm
Appearance color: black
Input voltage: 24V
Power rating: 60w
File formats: jpg, gif, mp4, avi, rmvb, mpeg, jpg,jpeg,png,-gif,mp4,avi,rmvb,mkv,wmv,mov,flv
Longevity: continuously running for more than 30000h

Display in multi-screen: Support holographic interaction of multi-screen as PC extension to enlarging image size

Warranty: 1 year
Applied in New product release meeting, Project launching ceremony, Wedding ceremony, Holographic real estate sand table, Culture and sports performance venues, Art stage, Entertainment and leisure venues, Chain catering institutions, Large supermarket and shopping center, The government culture propaganda wall, Exhibition, Subways, Airports, Chains organization, Theme amusement place, etc.

SOFTWARE

The hologram display fan is able to update, replace and manage the contents played by the device in real time through PC software and mobile APP, making it more convenient to use.

APP

PC

CLOUD SYSTEM

In order to better adapt to the application scenarios of commercial advertisements, Superbholo developed a cloud system which can remotely control devices of fancy screens. Through this control system, advertisers can remotely upload advertising content, set the playing times and the time period of advertising materials on the large number of display terminals distributed in all corners of the city. Compared with the traditional advertising machine, the display effect is cool and the power consumption is lower. Combined with the cloud system, the display fan can maximize the convenience for advertisers to manage advertising content, streamline advertising operators and maximize advertising revenue.
